STAT MEMORANDUM FOR:

[redacted]
Office of Legislative Counsel

STAT FROM:

[redacted]
Assistant Legislative Counsel

SUBJECT:

Letter to DCI from DOD (Charlie Duncan) dated
3 March 1978

STAT I recommend that the reply to Duncan contain reference along the following lines regarding the Director's role in charter legislation (if [redacted] has action, OLC should get input to him right away):

"The process of developing Administration positions on the intelligence charter legislation will, as I am sure you are aware, be complex and time-consuming and will entail much more than consideration of the procedures we are developing under Executive Order 12036. Pursuant to directive from Dr. Brzezinski, I have assumed responsibility for the composition of positions on the charter legislation, for approval by the President for subsequent transmittal to the Congress. This procedure is well in hand. Pursuant to my direction, the Deputy to the DCI for Resource Management will have by the end of this month individual agency and department views on various titles of the charter legislation. These will then be consolidated and coordinated for presentation to me for review and approval, and subsequent presentation to the National Security Council."
